FDA Commissioner Jane E. Henney 5600 Fishers Lane Rockville, MD. 20857

Please do all in your power to STOP our livestock producers from adding antibiotics to animal feed.

The European Union has already banned antibiotic use from animal feed and the Centers for Disease Control and the World Health Organization support their decision.

Europeans are informed and refusing to buy meat so treated. Why are Americans kept in the dark regarding what they consume?? HELP!! HELP!!

PLEASE MAKE A DIFFERENCE.

Sincerely,

Mary L. Ukleja 399 W. Hamilton

Palatine, IL. 60067

Cc: U.S. Trade Representative Charlene Barshefsky 600 17th St., N.W. Washington DC 20508

P.S. Are we more concerned with protecting big businesses, i.e., U.S. meatpackers and drug companies, that protecting the health of all people? Where are our priorities?
